Powerful Software

Mosaic is an integrated, web-based foodservice management solution that supports the key functions you need for your program's success.

Run Your Program From Anywhere

Access your program from nearly any internet-connected device. With the cloud, we manage all your software upgrades and server maintenance.

Gain Valuable Insights

Use the customizable reporting engine for accurate and reliable data and financial management to enable smart, data-driven decision making.

Keep Your Data Secure

We protect your program data with the highest levels of security and perform routine backups so your information is always stored if a recovery is needed.

MOSAIC FRONT OF HOUSE

Point of Sale | Free & Reduced

Mosaic is loaded with features to help you stay connected and productive while keeping your lines moving.

Simple for Cashiers & Managers

Your staff will love how easy it is to get kids through the lines and manage student accounts on the back end.

Streamlined Free & Reduced Processing

Quickly import or add applications, customize eligibility letters, generate reports to track statuses, and more.

MOSAIC BACK OF HOUSE

Menu Planning & Inventory

Mosaic gives you the tools you need to plan menus, manage inventory, control costs and reduce waste.

Build compliant menus with ease

Easily create and scale compliant recipes and quickly find the ingredients you need to build your menus.

Complete inventory management

Order all the ingredients, goods, and materials effortlessly and simplify your inventory operations.
